

DACHsec 2019 Conference Proposal

Dear _____,

I'd like to request your approval to attend [DACHsec](#), the annual Cyber Security summit dedicated to Germany, Austria and Switzerland and taking place in **Munich, 21st-22nd May 2019**. A select community of high-level cybersecurity professionals from across the region's critical industries will be on hand sharing real-life case studies, receiving hands-on training, and discussing cybersecurity best-practice guidelines and challenges.

This is not your typical conference – it places a great emphasis on connecting senior business leaders so that we can learn, share insights, and take away practical information that will help me boost our digital resilience journey as a direct consequence of attending the summit.

Last years' attendees were CISOs from the likes of **Volksbank, Bucher, Deutsche Flugsicherung, Hella, Roche, and the German Federal Office for Information Security**. I'd be interested to hear these senior perspectives on our shared cybersecurity challenges.

How else will [company] benefit?

DACHsec will allow us to:

- **Strengthen our security posture** by addressing key topics, such as how to secure cloud environments, how to control third-party risks in the supply chain, and the gaps and opportunities of legal regulations.
- **Access invaluable insights** from industry game-changers, allowing us to benefit from their success stories and avoid costly lessons learnt by peers.
- **Maintain competitive advantage**, benchmarking our digital resilience against rival companies and taking a closer look at what others are doing.
- **Evaluate market leading solutions** to determine the best strategies to safeguard our critical assets and infrastructure moving forward.

DACHsec's delegate pass includes access to all presentation streams and plenary sessions, as well as PDFs of all presentations post-summit. Lunchtime meals and refreshments during networking time are also included.

Standard passes are valued at **€999**, but if we are able to move this before the 31st of March, I can secure a **€250** discount on my attendance.

Please let me know when we can discuss this request further.

Thank you,
